TECHNOLOGY FOR POWER AND LOCOMOTION

Trade Promoters Limited (TPL) was appointed authorized distributor for Cummins Inc. in the Republic of Maldives effective April 2019, in addition to its 27-year role as the distributor for Cummins Inc. in Sri Lanka. The distributorship in the Maldives covers Cummins' full product line of diesel engines, diesel generating sets and related components, and Fleetguard Filtration products.

TPL is already familiar with the Maldives, having supplied and installed Cummins generator sets at several resorts over the last few years. We are currently working on Cummins prime power generator installations at three new 5-star hotels in the Maldives which are scheduled for completion by early 2020, and also supplying generators to Fenaka Corporation to ensure the Maldives' island communities have a secure and reliable supply of electricity.

Our Head Office, Parts Warehouse and Service Workshop will be located in Hulhumale' and ready for occupation shortly.

Established in 1976, Trade Promoters Limited Sri Lanka is the authorized distributor for global entities Cummins Inc. (diesel generators and engines for marine, construction and industrial applications), and Schindler (elevators and escalators). Supported by its team of experienced engineers and Cummins factory trained technicians, TPL is the market leader in the diesel generator industry in Sri Lanka with its Head Office, Workshop, Parts Centre, Noise Treatment Area, Test Cell, and Cummins Certified Training Centre, all located in Malabe, just outside Colombo.

Cummins Inc., founded in 1919 and headquartered in Columbus, Indiana (USA), is a Fortune 500 company and the largest diesel engine manufacturer in the world. Serving customers in 190 countries through a network of 600 company-owned and independent distributors, the company earned about \$2.1 billion on sales of \$23.8 billion in 2018.

“

TPL has an excellent track record as Cummins' sole distributor in Sri Lanka, and we look forward to the company building a customer-focused business in the Maldives. Importantly, TPL's business practices align with Cummins' core values and business ethics.”

- Peter Jensen-Muir, Executive Managing Director for Cummins Asia Pacific.

Our Product Range

Cummins generator sets range from 5.7kW to 2680kW. Cummins Power Generation matches the right generator set, transfer and control technologies to power a client's needs. With pre-integrated onsite power systems, all the components are designed to work together as a whole. Especially when you need generator power 24 hours a day, it is important to pick a product known for its reliability and long life. Cummins Power Generation generators are known to run almost twice the number of hours, i.e. time before overhaul, compared to most of its competitors.

Diesel generators from 5.7kW to 2680kW.

“

Cummins Power Generation generators are known to run almost twice the number of hours, that is, time before overhaul, compared to most of its competitors.”

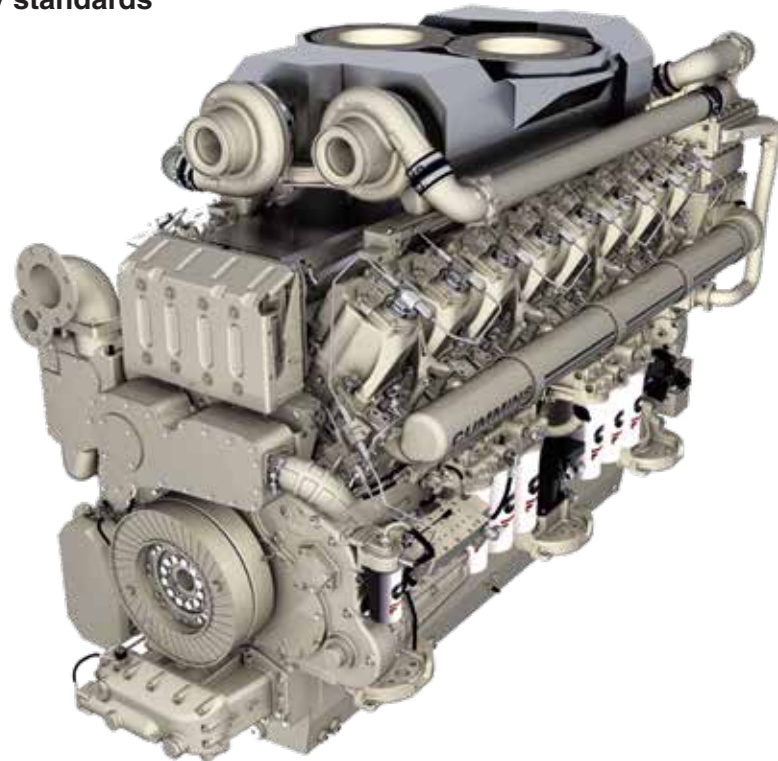

- Rohan M. Fernando, Chairman, TPL

Propulsion Engines & Marine Generating Sets

Cummins marine propulsion engines from 120BHP-4200 BHP, and marine generating sets & auxiliary power solutions from 74kW-3000kW, are designed specifically for the challenges in commercial marine applications. We also offer Cummins-Onan marine diesel generators from 4kW-99kW. Factory trained Marine Application Engineers are available on-call 24/7.

- **Customized packages to meet your requirements**
- **Diesel electric packages**
- **Meets global emission standards**
- **Meets classification society standards**

Cummins certified Marine Application Engineers are available 24/7

Cummins spare parts & Fleetguard Filters

We supply only genuine Cummins spare parts backed by a 1-year Cummins warranty, and genuine Fleetguard filters which will enhance the performance of your products and time between services. Available ex-stock. Ask us for a genuineness certificate issued by Cummins/Fleetguard.

Services

Cummins-certified technicians are available to provide routine services, scheduled maintenance and emergency repairs. TPL's workshop in Hulhumalè will be equipped with all the required tooling including Cummins special tools, diagnostic software, and a certified fuel pump and injector calibration facility. Trade Promoters Limited is the only entity in Maldives authorized by Cummins to carry out warranty repairs on all Cummins products. All our repairs carry a warranty.

Training

Training programs will be available in the Maldives, tailor-made to customer requirements, either at TPL's facility in Hulhumalè, or at customer locations depending on the circumstances. TPL Sri Lanka houses a Cummins certified training facility with the latest tools and training aids including training engines, simulators, control panels and diagnostic tools. Customized training programs certified by Cummins are also available for customers at this facility.

“

We are the only company authorized to carry out warranty repairs on cummins powered products operating in the Maldives

- Ranil H. Fernando, Joint Managing Director, TPL

Engineering Solutions

Load surveys to product supply, installation, sound attenuation (room soundproofing or enclosures), fuel tanks and fuel distribution/control, exhaust systems, heat recovery systems, Automatic Transfer Switches (ATS), switchgear panels, power and control cabling, bus ducts, earthing systems, synchronizing including load demand – Whatever your scope is, our Engineering & Projects team can add value.

TPL Sri Lanka

Cummins engines are used in Sri Lanka for railways, patrol boats and passenger transport craft, for transfer cranes and trucks at the port, for construction equipment and buses, and on Cummins Power Generation (CPG) generators used all over the island.

With 250 staff, Trade Promoters Limited Sri Lanka has developed capacity and capability to contribute to the development of Sri Lanka's infrastructure, its buildings, its retail and manufacturing sectors, having supplied Cummins Power Generation diesel generators to several important customers across various segments.
